

# CONFERENCE

Friday, October 20, 2017  
7:30 AM - 5:00 PM

**Ala Moana Hotel  
Hibiscus Ballroom  
410 Atkinson Drive**

*Our goal of this conference is to increase the participant's understanding and awareness of the theoretical and clinical advances in wound, ostomy, and continence care.*

## CONFERENCE SPEAKERS, TITLES, & OBJECTIVES

### Gregory Schultz, PhD

#### ***“Reduction and Prevention of Bacterial Biofilms by Concentrated Surfactant Gel”***

##### Objectives:

- Review the major concepts of “biofilm-based wound care”
- Discuss effects of concentrated surfactant gel treatment on prevention and reduction of biofilms and clinical applications of concentrated surfactant gel treatment

#### ***“Battling Biofilms: Winning the War in Wounds”***

##### Objectives:

- Understand important differences between the microbiology of planktonic and biofilm bacteria including high tolerance to antibiotics and antiseptics
- Describe how the presence of polymicrobial biofilms may impair wound healing

#### ***“Scar Wars”***

##### Objectives:

- Explain the molecular regulation of normal wound healing and the mechanisms that cause excessive scar formation (fibrosis).
- Identify clinical approaches that reduce the formation of excessive scars

### Scott Hoskinson, MD

#### ***“Skin and Soft Tissue Infections”***

##### Objectives:

- Define SSTI
  - Etiology (Bacterial, Fungal, Viral, Parasitic)
  - Non-purulent (Cellulitis, Necrotizing Fasciitis, Erysipelas)
  - Purulent (Furuncle, Carbuncle, Abscess)
- Presentation of case studies to discuss:
  - Diagnosis
  - Complications
  - Treatment Plan

#### ***“Bone Infections”***

##### Objectives:

- Define osteomyelitis
- Discuss diagnostics
  - Blood Tests
  - Imaging studies
  - Bone biopsy
- Presentation of case studies:
  - Review of risk factors
  - Complications
  - Treatment Plan

### Frederick Yost, MD & Anne Jinbo PhD, CWOCN, CPNP

#### ***“Understanding the Complexity of Stomal Construction and Complications”***

##### Objectives:

- Describe at least two challenges in creating a stoma
- Identify complications that can arise with stomal construction
- List interventions that can be used to increase pouch adherence with difficult stomas

### Peter Galpin, MD

#### ***“Shark Bites”***

##### Objectives:

- Explore complex musculo-skeletal trauma
- Discuss the differences and indications for skin graft vs flap reconstructions
- Discuss post injury recovery

Dwight Kellicut, MD

**“Vascular Reconstruction”**

Objectives:

- Understand indicators for revascularization
- Describe surgical revascularization procedures
- Identify complications of these procedures

Scott Yokota DPT, CSCS and Jaryn Lau BSN, CWOCN

**“Positioning and Mobility of the High Risk Population”**

Objectives:

- Describe risk factors in the obese, elderly, incontinent, and immobile populations
- Identify high risk areas for pressure injury development in the supine, sitting, and reclining positions
- Identify appropriate techniques or ambulation devices for transferring and positioning to reduce pressure and promote pressure injury healing

Susie Lee, BSN, RN, WCC and Jennifer Lerner, BSN, RN

**“Wheel of Wounds”**

Objective:

- The attendee will be able to select the most appropriate dressings for various wounds.

Doreen Akamine, MPH, RN, CWOCN, CFCN

**“Individualizing NPWT: Beyond the Routine”**

Objective:

- Describe techniques to individualize dressing a wound using negative pressure wound therapy (NPWT)

Nicole Niwa, Pharm.D., R.Ph.

**“A General Overview of Common Medications for the Ostomate”**

Objectives:

- Describe medications that may affect patients with an ostomy
- Identify the precautions an ostomate needs to be aware of when taking different types of medications

Anne Jinbo, PhD, CWOCN, CPNP

**“The Challenge of Enteral Devices”**

Objectives:

- Identify common complications that occur with enteral devices
- Describe at least two interventions that can be considered in managing enterostomy challenges

## W. Darren Hammond, PT, MPT, CWS

### *“Back and Cushions Oh My! - Understanding The Differences and Reimbursement Criteria for Each”*

#### Objectives:

- List four different types of power seat functions of a power wheelchair.
- Discuss three potential medical or functional benefits differentiating a tilt and recline system versus a tilt only system.
- Describe three specific eligibility and documentation requirements for a skin protection wheelchair cushion.

### DESCRIPTION OF BREAKOUT SESSIONS

- ✓ **Bone Infections:**  
An overview of the current practices in managing bone infections
- ✓ **Understanding the Complexity of Stomal Construction and Complications:**  
Description of surgical techniques used in stomal construction and management of stomal complications that may arise
- ✓ **Shark Bites:**  
An awareness of the surgical interventions used in caring for patient who sustain shark bites
- ✓ **Battling Biofilms: Winning the War in Wounds:**  
Updates in understanding the development of biofilms and their effects on wounds
- ✓ **Vascular Reconstruction:**  
The current surgical advances in revascularization
- ✓ **Individualizing NPWT: Beyond the Routine:**  
An opportunity for "hands-on" learning of application of NPWT dressings
- ✓ **A General Overview of Common Medications for the Ostomate**  
An overview of how medications can affect patients with an ostomy and appropriate precautions that need to be taken
- ✓ **Wheel of Wounds:**  
A description of the categories of wound dressings and when to use them
- ✓ **Scar Wars:**  
An explanation of the normal wound healing/the mechanisms that cause excessive scar formation and identify clinical approaches that reduce the formation of excessive scars
- ✓ **Positioning and Mobility of the High Risk Population:**  
A presentation for health care providers which will enable them to educate caregivers about the prevention and treatment of pressure injuries as their clients' physical state declines. The presentation will include proper positioning, transfer training, and incontinence care.
- ✓ **Back & Cushions Oh My! Understanding The Differences and Reimbursement Criteria for Each**  
An overview of types of wheelchairs and accessories that will help nurses and case manager with strategies to help make the approval process of wheelchairs and wheelchair cushions easier and much quicker.
- ✓ **The Challenge of Enteral Devices:**  
A review of types of enteral devices, potential complications with enteral devices and management strategies appropriate for the patient.

PROGRAM & BREAKOUT SELECTION FORM

**CHOOSING YOUR SESSIONS!** First Come, First Serve!

**Directions:** Check the box , only ONE (1) SESSION for each time frame AND return with the registration form.

TIME	ROOMS		
	Ballroom "A"	Ballroom "B"	TBD
0700 - 0730	Registration/Exhibits		
0730 - 0745	Welcome		
0745 - 0845	Reduction and Prevention of Bacterial Biofilms by Concentrated Surfactant Gel		
0845 - 0945	Skin & Soft Tissue Infections		
0945 - 1015	Break/Exhibits		
1015 - 1115	<input type="checkbox"/> Bone Infections	<input type="checkbox"/> Understanding the Complexity of Stomal Construction & Complications	
1115 - 1215	<input type="checkbox"/> Battling Biofilms: Winning the War in Wounds	<input type="checkbox"/> Shark Bites	
1215 - 1315	Exhibits/Lunch		
1315 - 1345	<input type="checkbox"/> Shark Bites	<input type="checkbox"/> Vascular Reconstruction	<input type="checkbox"/> Individualizing NPWT: Beyond the Routine
1350 - 1420			NPWT - Hands On
1425 - 1455	<input type="checkbox"/> General Overview of Common Medications for the Ostomate	<input type="checkbox"/> Scar Wars	<input type="checkbox"/> The Challenges of Enteral Devices
1500 - 1530			
1530 - 1545	Break		
1545 - 1615	<input type="checkbox"/> Back & Cushions Oh My! Understanding the Differences & Reimbursement Criteria for Each	<input type="checkbox"/> Positioning & Mobility of The High Risk Population	<input type="checkbox"/> Wheel of Wounds
1620 - 1650			
1650 - 1700	Evaluations		

REGISTRATION FORM

*Directions: Please fill & mail: 1) Program Break Out Selections Form AND 2) Registration Form AND 3) Payment to HAWOCC.*

[CONTINUING EDUCATION CONTACT HOURS:](#)

This continuing education activity was approved by the Western Multi-State Division, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Arizona, Colorado, Idaho, & Utah Nurses Associations are members of the Western Multi-State Division. For more information regarding contact hours, please call Anne Jinbo (808) 392-5459.  
7.0 CE Credits pending

**\*Attendance through the entire conference is required to receive CE credit**

### REGISTRATION & CONFERENCE MATERIALS

- Registration fee includes continental breakfast, lunch, refreshments, sponsored exhibits, & conference materials.
- Conference Handouts will not be provided, if available, please feel free to download them from our website.

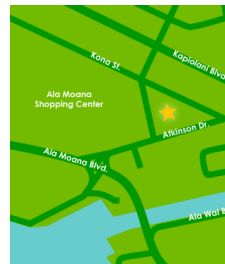

**NO REFUND** for non-attendance.

**Registration Deadline: Postmarked Friday, October 6, 2017**

### LOCATION/PARKING

**Ala Moana Hotel**  
410 Atkinson Drive  
Honolulu, HI 96814  
Phone: 808-944-4333

**Parking:** Self-parking at the Ala Hotel Parking Lot.  
\$10.00 for 10 hours+ with validation

**\* PLEASE VISIT OUR WEBSITE TO JOIN**

**THE HAWAII ASSOCIATION FOR WOUND OSTOMY & CONTINENCE CARE:**

<http://www.HawaiiAssocWOCC.org/>

**FOR QUESTIONS, PLEASE CONTACT:**
